

'Green Book' In 26th Year

The "Green Book"—serving as a guide for the Negro traveler and vacationist — has grown from a 16-page pamphlet in 1936 to a large book of 128 pages, with a circulation of 2,000,000 copies.

The attractive directory lists hotels, motels, restaurants, tourists homes and vacation resorts throughout the United States, Canada, Mexico and the Caribbean.

The "Green Book" is distributed by Humble Oil and Refining Company and is widely used by automobile clubs, travel bureaus, bus and airlines, the armed forces and thousands of subscribers who depend on its useful travel references. It is in the reference section of libraries in major cities.

As an added service the directory indicates "Green Book Recommended" outlets, although a foreword footnote states that outlets not so indicated does not mean their accommodations are inferior.

The publishers of the "Green Book" are the Victor H. Green & Company, 200 West 135th St., Room 215A, New York 30, N. Y., Mrs. Alma D. Green, editor. The directory sell for \$1.95 post-paid.
